DIVISION OF
OIL, GAS & MINING

Kennecott

July 13, 1989

Mr. Lowell P. Braxton
Associate Director, Mining
Utah Division of Oil Gas and Mining
Three Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Dear Mr. Braxton:

Enclosed please find two copies of Kennecott's Final Reclamation Plan for the Pine Canyon property in Tooele County, Utah. As you are aware, most of the mining-related disturbance has been reclaimed under the reclamation plan approved by the Division on September 26, 1989. That reclamation work began in the fall of 1988 and was completed this past spring. A small amount of the former Carr Fork mine disturbances and facilities remain unreclaimed because a potential future mining-related land use is foreseen. The Final Reclamation Plan addresses these remaining facilities.

Should you or your staff have general questions regarding the plan or wish to schedule a site visit, please contact either me (569-6555) or Mr. Chuck Stillman (569-6641) of the Kennecott/UCD Engineering Department. If you have specific technical questions, you may wish to contact either Mr. Robert Bayer or Ms. Karla Knoop of JBR Consultants, the preparers of the plan, directly. They may be contacted by telephone at (801) 943-4144.

Thank you very much.

Sincerely,

Michael H. Gibson
Director, Environmental Affairs
